REPEL JM DOG

FICHATÉCNICA

PRODUCT	DESCRIPTION
	Dog repellent and preventive for rust and bad odors on doors, walls, fences, tires, rims, and other surfaces. • Clean the area thoroughly before application. • Shake well and spray in the areas where you do not want dogs and other animals to urinate and/or defecate. • Use a sprayer with a coarse droplet to avoid evaporation of the effect. • Preventing urine helps avoid rust on metal doors, rims, and other metal elements preferred by dogs for their needs, and, of course, helps prevent bad odors. • If the presence of unwanted pets is very frequent, it is recommended to wash at least every 3 days and apply this product daily, even on the immediate floor by the door or wall.
Presentations	• 500 ML carboy ready for application. • 500 ML concentrated carboy for 5 liters, • 4500 ML gallon ready for application.
Brand	Repeldog JM
Application color	Colorless if applied according to the recommended dose on the label.
Smell	Citrus and mint to mitigate the strong odor of the repellent.
General Composition	Raw materials used as fungicides against fungi and as food preservatives, which, due to their high concentration and residual nature, can be bothersome to sensitive olfactory senses. The specific composition and formula are the industrial property of the manufacturer.
Usage Warnings	• During application, protect yourself with a face shield, mask, gloves, and waterproof clothing. • If product spills on skin or eyes, it should be washed off immediately. • Moderately toxic product, should be kept out of reach of children and animals; exclusively marketed in the original packaging, and do not dispose of excess or empty containers in water sources.
