Desinféctor 20

FICHA TÉCNICA

PRODUCT	DESCRIPTION
	Natural antibacterial with anti-dust mite, anti-odor, anti-fungal, anti-algae, and anti-virus properties for industrial, institutional, and corporate use. **Instructions for use** Shake well before use. Apply with a spray on mattresses, furniture, vehicle upholstery, carpets, rugs, pet beds, supplies, socks, shoes, boots, hotel linens, hospital attire, and general clothing. Also suitable for decontaminating high-traffic items such as banknotes, furniture, handrails, floors, bathrooms, and walls.
Presentations	• Available in spray bottles and gallon containers, ready for application. • Gallon-sized bag ready for application. • Concentrated gallon for 200 liters, to be applied at a rate of 20 ml per liter of water with a spray or as a rinse in a washing machine, suitable for leather processing.
Brand	Desinfector 20
Application color	Colorless if applied according to the recommended dose on the label.
General Composition	The raw materials used for pool disinfectants (excluding chlorine), the materials used in vaginal disinfectants, also employed as preservatives in animal food and agricultural fungicides, as well as components of foot talcum powder (excluding triclosan), are part of a specific formula and composition that is the industrial property of the manufacturer. This information is protected through trade secrets and patent rights.
Usage Warnings	• Commercialize in the original packaging. • Avoid prolonged application by pregnant women. • Avoid contact with eyes and do not ingest. • Keep out of reach of children and pets. • Do not apply on white or light-colored latex items (it may discolor them to yellow). • Do not dispose of excess or empty containers in water sources.
